Submitted to His Highness

The enclosed interesting communication from the Resident is submitted for perusal. I shall take your Hs orders this evening at S. Palace.

The gentlemen referred to in the letter is, in some respects, the most important guest that your H. has entertained in Mysore, for they are the representatives of the British public of England, are coming out mainly with the idea of studying Indian problems on the spot.

If — as may be confidently hoped — Mysore can make a favourable & endearing impression on them, it will be a great gain to your Highness & the state. Such opportunities rarely occur, & when they do, they must be taken advantage of made the most of to spread the fame of Mysore and to enhance the prestige of her Maharaja.
